1. On 28 December 1950, the barracks installation on the northwestern perimeter of Wurzen (N 52/E 42) seemed to be occupied to capacity. Officers seen there wore artillery and tank insignia on their epaulets. \*

2. [REDACTED] every two weeks a laundry in Wurzen received [REDACTED] sets of underwear and shorts, used during athletic exercises. \*\*

3. A total of 120 to 130 new or overhauled trucks was seen in the yard of the motor vehicle repair shop in Wurzen. \*\*\*

\* [REDACTED] Comment. The barracks installation in Wurzen quarters a tank component of the 8th Gds Wecz Div, probably the 20th Gds Wecz Regt. [REDACTED] The present report indicates that the units of the regiment were at the post in late December 1950.

\*\* [REDACTED] Comment. [REDACTED] reported from Land Saxony during the winter of 1948 and the spring of 1949. The unit [REDACTED] was listed in the 1948/1949 production plan of the iron works in Leitz as the receiver of two cranes. [REDACTED] possibly assigned to a supply unit. But if so, the exceedingly large number of items to be laundered is doubted.

\*\*\* [REDACTED] Comment. Presumably the 54th Central Repair Shop of the COFG, which was confirmed in Wurzen until 2 September 1950. The shop is located on Lueptitzerstrasse and is primarily engaged in the repair of used motor vehicles, coming from the U.S.S.R. via Brest Litovsk and Frankfurt/Oder, prior to their re-assignment to units.
